# Candidate: Employee Representative
# SR Technics Switzerland Pension Fund

Candidate:

Michael Müller, Dipl. Mechanical Engineer / with SR Technics since 2018

Position:

VP Engine Operations and Member of the Investment Committee (ALKO)

Motivation:

For me, a pension fund is about far more than numbers, returns and investment strategies. It is about the financial future of our employees and therefore something that affects every one of us personally.

As a member of the Investment Committee of the SR Technics Pension Fund, I already have the opportunity to share responsibility for managing our pension assets. This experience has strengthened my desire to contribute even more broadly to a strong, reliable and sustainable occupational pension scheme. This is why I am standing for election to the Board of Trustees.

In my day-to-day role, I carry responsibility for many employees. For me, people are always at the heart of what we do. I would bring the same mindset to the Board of Trustees: listening, understanding different interests, taking responsibility and making decisions with a long-term perspective.

I am committed to supporting a financially sound pension fund, a responsible investment strategy, transparency and attractive pension solutions for our employees.

**To me, retirement provision is not only about planning for tomorrow. It is about taking responsibility today for people and their future.**

Outside of work, my family is at the centre of my life. I enjoy staying active through sports and, from time to time, appreciate a good meal accompanied by a nice bottle of red wine.
